'Radiance'

ABELIA

This vigorous shrub with a compact habit is a standout, maintaining its color and density throughout the year. Crimson stems contrast dramatically with variegated foliage that begins medium green with creamy yellow margins and ages to silvery-green with cream margins. Fragrant white tubular flowers appear mid-summer to fall.

USE

Accent, Container, Cut Flowers, Low Hedge, Mass Planting

FEATURE

Fragrant white tubular flowers from mid-summer to fall; colorful bi-colored variegated foliage

GROWTH RATE

Moderate

WATER

Medium

SOIL

Well-drained garden soil with rich organic matter
