

Cleopatra™

LIRIOPE

Liriope muscari 'Bigun' PP15474

Cleopatra is an excellent choice for many landscape design elements; from borders and pathways to location challenges such as shady areas and slopes. A clumping liriope, Cleopatra's foliage spans 15 inches and is darker and wider than other varieties. In the summer, lovely lavender spikes elegantly rise above the dark green foliage.

USE

Borders, slopes, pathways

BLOOM / BLOOM TIME

Tall dark green foliage; spikes of purple flowers in the summer

GROWTH RATE

Moderate to fast

WATER

Water as needed

SOIL

Soil

FERTILIZE

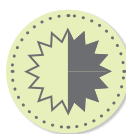

Early spring
